PASSION in Action

Workshop Synopsis

The Workshop will primarily (1) help connect to our inner-selves (our core), enrich our senses as to awaken and glow our Passion; (2) help us connect to and gather external resources (the larger system); and (3) model success stories, learn how their strategies, attitudes and inspirations can provide ways to develop and empower us to put Passion in action, lead creating positive changes in ourselves and our communities.

The Workshop will be highly interactive and enlightening, with lots of exercises for first hand experiencing and learning (employing both the Cognitive and Body) to connect with our core, enriching our senses both inside and outside (the larger system), hence expanding and strengthening ourselves to find our life direction and move purposefully on overcoming obstacles and challenges as they come along, and make a difference in ourselves and our communities.
